	Examiner Than Nguyen	Art Unit 2187	

--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

THE REPLY FILED 01 February 2010 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.

1. ☒ The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:

- a) ☐ The period for reply expires _____ months from the mailing date of the final rejection.
 b) ☒ The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.

Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

NOTICE OF APPEAL

2. ☐ The Notice of Appeal was filed on _____. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).

 Primary Examiner, Art Unit 2187

Continuation of 11. does NOT place the application in condition for allowance because: As to claim 26, Applicant argues Hirota et al fails to teach indication information including available storage capacity. The claim language only requires the indication information being "at least one of information..." Thus, only one type of information is required by the claim. The Examiner has shown that Hirota et al teaches the indication of the idle state (21/39-43) and/or device ID which identifies the user (22/55-64). This clearly satisfies the claimed limitation of the indication information being "at least one of". The claimed indication information being available storage capacity is not a required limitation, as indicated by the claim language "at least one of". Applicant's argument regarding this limitation is not persuasive. If Applicant intends the indication to have all of the disclosed information, Applicant must amend the claims accordingly.

The claimed control module can be read as any/all components in player 201 to perform the claimed method (9/37-56).

Regarding claim 35, the claim language requires the necessary indication information including "at least one of information...". Therefore, only one information of all the disclosed information is required. The Examiner has shown that Hirota teaches and supplying at least one of the disclosed information (See rejection to claims 35 and 26 and also above explanation). If Applicant intends the indication to have all of the disclosed information, Applicant must amend the claims accordingly.
